## Education

- **VIT | Vellore** | 2020 - Present

  **B.Tech**: CSE

- **KIST College, Kathmandu** | 05/2019

  **+2**: Science (PCM):  3.41 GPA

## Languages

- **Python, Flask**
- **Java**
- **C+**
- **HTML, CSS, JS, PHP**
- **SQL**

## Projects

### • Farm2Home | HTML,CSS,JS,PHP,MYSQL
Online platform for farmers

I led this project in my 5th semester as a part of my Software engineering project component. This project was a unique idea where we intended for farmers and consumers to connect digitally without the involvement of middleman. The project provided valuable experience in project management, web development, and ecommerce.

### • SIGN-LANUAGE DETECTOR | AI/ML , PYTHON

Our team developed a Sign Language Detector using Neural Networks and Machine Learning algorithms for our AI project. We created and trained the model using our own dataset of sign language gestures, achieving an accuracy of over 90%.
